# BANKING & FINANCE

AZB & Partners, with its in- depth understanding of various financial products and services, is able to offer its clients the kind of counsel needed to navigate through complex regulatory environments.

Our clients range from domestic to multinational financial institutions, while the scope of our work routinely includes advice on regulatory issues, new banking products and services, and risk and capital management. Our knowledge and familiarity with international regulations and financial products places us at a particular advantage to deliver sophisticated counsel on a broad spectrum of topics.

Our work includes:

- Representing lenders and borrowers on projects related to structured finance, corporate and acquisition finance and project finance transactions
- Strategic acquisitions and minority investments in Indian private sector banks
- Transactions involving multilateral agencies and export credit agencies

Securitisation transactions with challenging asset classes
