

Capital Markets

AZB & Partners' Capital Markets team handles complex equity and debt offerings in domestic and international markets.

We provide advice on domestic and global capital raising activities for various clients, including investment banks and industrial houses.

The natural integration of the firm's Corporate practice with its Capital Markets expertise has allowed the practice to expand into various sectors and jurisdictions.

Our work includes:

- Advising on public offerings
- Advising on Qualified Institutional Placements ('QIP') and rights offerings of equity
- Advising on offerings and placements of equity linked and debt securities, domestically and internationally
- Advising on international offerings of equity and debt instruments – both INR and foreign currency denominated – including Masala Bonds and Green Bonds, American Depositary Receipts ('ADR'), Global Depositary Receipts and Foreign Currency Convertible Bonds
