

Defence

AZB & Partners' defence team has worked with some of the world's leading aerospace and defence companies. We understand the complexities involved, particularly the process of public procurement and are able to deliver solution-oriented counsel within the regulatory and legal frameworks.

Our work includes:

- Advising on foreign direct investment ('FDI') regulations applicable to the Indian defence sector and on procuring licenses
- Structuring of joint ventures
- Conducting legal due diligence of companies engaged in defence manufacturing activities
- Advising on standard requests for proposals under the Defence Procurement Procedures of the Indian Ministry of Defence
- Issues related to the fulfilment of offset obligations
- Contracts between foreign original equipment manufacturers and their Indian offset partner(s)

Tata Advanced Systems on its (i) joint venture with Lockheed Martin Corporation; and (ii) 74% acquisition in HBL Elta Avionics Systems.

Raytheon on (i) FDI in existing Indian Defence projects; and (ii) defence procurement rules and government-to-government defence procurement.

Boeing on (i) a proposed joint venture in India; (ii) aspects of the Defence Procurement Procedure, particularly in relation to Indian defense agents; (iii) standard contracts contained in the Defence Procurement Procedure; and (iv) compliance and structuring of offset credits in ongoing defense contracts.
